

We offer select ventilation systems\* from Trade-Wind that are compatible with all widths of our wood hoods. Each width has a 390 CFM or a 600 CFM model option available.

\*Liners and blowers sold by USCD are recommendations only. These items are not required for use with our wood hoods. Internal specs are available on the hood style sheets available for download through your dealer portal. If you have additional questions regarding compatible liners and blowers, please consult with a local HVAC technician.
