

Construction

Are your cabinets constructed with solid wood?

Framed Capital Collection

- *Doors & Drawer Fronts* -
 - All stained doors, drawer fronts, and frames are constructed from 3/4" solid Birch hardwood. Our Casselberry Saddle style has a solid birch center panel, while our stained Shaker Cinder has a veneered MDF center panel.
 - Our painted styles feature an all HDF door: Shaker White, Shaker Grey, Shaker Dove, Shaker Antique White, Torrance White, Torrance Dove, Casselberry Antique White, and York Antique White.
- *Cabinet Box* - Our framed cabinet boxes are constructed from solid Birch hardwoods and furniture grade plywood. All materials are CARB2 compliant for standard US restrictions for formaldehyde emissions.
- *Drawer Box* - Our framed cabinetry features four-sided drawer boxes constructed from 5/8" thick solid hardwood, dovetail joints, and a fully captured 3/8" thick plywood floor.

altaeuro Full Access Frameless

- *Doors & Drawer Fronts* -
 - Our Torino and Riviera styles feature a fully edge banded, thermofused textured melamine over engineered wood, with a matching back.
 - Our Palermo style features a fully edge banded, high-gloss PET laminate over engineered wood, with a matte melamine back.
 - Our Verona style features a five-piece HDF painted door.
- *Cabinet Box* - Our frameless cabinet boxes are constructed using MDF and furniture grade plywood. All materials are CARB2 compliant for standard US restrictions for formaldehyde emissions.
- *Drawer Box* - Our frameless cabinetry comes standard with our altamax drawer box. The altamax drawer box is a four-piece construction box complete with 1/2" thick metal sides and 5/8" thick thermofused melamine engineered wood back and floor.

How is the interior of the cabinet finished?

Framed Capital Collection

- Our framed cabinetry comes standard with UV coated natural interiors. Glassdoor "GD" cabinets have interiors that are painted or stained to match the exterior.

altaeuro Full Access Frameless

- Our altaeuro cabinet boxes feature a grey linen thermofused melamine in and out.

Are your cabinets CARB2 certified?

Yes, all US Cabinet Depot products are 100% in compliance with CARB Phase 1 & CARB Phase 2 defined guidelines of composite wood products.
