ABOUT US

Cabinet Corp is a blend of cabinetry professionals from many different areas of the cabinet industry. This mix of knowledge and experience has allowed us to build a company that truly understands the needs of its customers. Our focus is on providing products that exceed our customers' expectations in quality, price and service.

Quality:

Our products are designed to the highest standards in style and function. We start by selecting only high quality raw materials, hardware, adhesives and finishes. This bundle of superior components is the first step to securing your long-term satisfaction.

The second step is a state-of-the-art manufacturing process which ensures consistent production across the board. We have worked diligently to cut out waste and eliminate bottlenecks. New manufacturing technologies are quickly implemented as they become available to the industry. The result is streamlined and efficient production costs which support a very competitive sales price for our products.

The final step is thorough inspections. Components are inspected for quality at the completion of each step of the manufacturing process. When the entire process is complete, each batch of products are compared with a control group to make sure it will match warehouse inventory perfectly. These quality standards were established so our customers have confidence in the consistent quality of our construction, color and finish.

Service:

We believe a product is only as good as the service that supports it. We spend a lot of time developing materials, processes and policies in order to make sure our customers are better served.

The services we provide can be divided into three categories: supporting materials, order processing and customer service. Large strides have been made to ensure all of the pertinent information customers seek is readily available. Marketing materials are constantly being developed and distributed to help our customers educate their clientele. We understand that these are the sales tools required to successfully sell our product in your showrooms.

Our automated order processing system has allowed us to eliminate many unnecessary steps, significantly reducing our lead time. Orders placed online seamlessly flow through our inventory control and accounting systems.

We have a great team of experienced cabinet professionals ready to hear your concerns and answer your questions. Most importantly we listen to the input our customers give us and make sure your suggestions are addressed as we continually seek ways to better serve you. The goal is to establish a mutually beneficial relationship in which we can grow our businesses around.

Frameless cabinets, often referred to as “full-access” or European style cabinets, have been steadily gaining popularity in the United States. Unlike framed cabinetry, frameless cabinets do not utilize a face frame attached to the cabinet box but instead relies on a thicker box and support rails for strength. With the absence of a face frame, full accessibility to the cabinet offers more storage solutions when compared to framed cabinetry.

Warranty Information

Limited Lifetime Warranty

Brothers Global Inc. warrants to the original consumer purchaser that Cabinet Corp cabinetry, door hinges, and drawer glides will be free from defects in material and workmanship under normal use and service for the lifetime of the product (Proof of Purchase is required). This warranty is not transferable and only applicable to product used for residential purposes. Representatives of Cabinet Corp do not have the authority to change or enlarge this warranty.

This warranty does not cover normal wear and tear, damage or defects caused by accidents, misuse, abuse, or lack of necessary maintenance; nor does it cover alteration, modification, improper installation, improper handling / storage, environmental conditions, nor any labor expenses. Brothers Global Inc., at our option, may elect to repair or replace with a functionally equivalent product any Cabinet Corp product covered by this warranty. Some replacement parts are subject to availability and may differ from original parts received. Return of defective product may be required for a replacement to be issued. Repair parts or replacement parts are at the expense of Brothers Global Inc., but customer shall bear all other expenses. These expenses may include, but are not limited to, cost of removal and re-installation of product, labor expenses, etc.

In alignment with the inherent variability found in wood products, we deeply value and embrace the unique characteristics present in each piece of wood. Our recognition and celebration of wood's natural beauty encompass its inherent diversities in color, grain pattern, and direction, all of which contribute to its aesthetic charm without compromising its quality. Additional environmental factors, including but not limited to artificial/natural light, moisture, cleaners, smoke, etc, may cause darkening or mellowing of a cabinet over time. This is a natural process and can be expected. It's imperative to highlight that while we stand behind the integrity of our products, expected variations in color, grain, and aging are not indicative of manufacturing defects and will not prompt a replacement. Therefore, we meticulously assess color warranty claims pertaining to cabinet front exteriors, excluding the referenced aging or environmental damage, and honor genuine discrepancies in color resulting from manufacturing error, which are not intrinsic to wood, and are reported within the stipulated timeframe outlined in our Terms and Conditions.

Please note that variations in the natural wood color, pattern, grain, and direction within the cabinet's interior and not exposed after proper and intended installation do not warrant cabinet or parts replacement. Some of the cabinet lines feature a glazed finish which accentuates the door and drawer front profiles. This glaze is hand applied over a stain or paint and may, due to the nature of application, consist of random drips, runs, etc. As glazing is a hand applied process, there will be variations in color and appearance from door to door and cabinet to cabinet. This is not considered a defect and is considered normal with hand applied finishes. It is the nature of wood to expand and contract to varying degrees depending on climate conditions. As a result, cabinet lines with painted surfaces may show fractures in the paint at joints. This is normal and is not considered a defect.

This warranty is valid only in the United States of America and Canada and is not transferable. All implied warranties are limited in duration to the shorter of the period provided by law or the period of this warranty. To the extent permitted by law, this warranty excludes special, incidental, or consequential damages. Some states do not allow the exclusion or limitations of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights; you may have other rights which vary from state to state. To exercise this warranty, please contact the Cabinet Corp supplier from whom you purchased the product. Report, in writing, to support@cabinetcorp.com all defects claimed and include proof of purchase documentation.
